Investment Objective

The objective of this Sub-Fund is to achieve capital appreciation over the medium to long-term by investing at least two-thirds of its total assets in a diversified portfolio of equities and equity-linked instruments issued by companies which have their registered office or which exercise a preponderant part of their economic activities in Europe. This Sub-Fund is not sector specific and can invest in a broad range of sectors and industries. It seeks to add value by investing in a selective range of opportunities identified by the Investment Manager. In order to optimise its investment returns the Sub-Fund seeks exposure to both short and long positions on equities. Please see the Prospectus for the complete Investment Objectives.
