Country Breakdown

Investment Process

Step 1 - Idea Generation

- Focus on stock selection rather than on specific sectors. Sector and country weights are primarily driven by stock selection.
- Proprietary buy-side research.
- Objective is to buy companies where profitability (ROIC) is undervalued (EV/IC).

Step 2 - Fundamental Research

- An in-house team of experienced European Equity Analysts provide the Portfolio Management team with detailed, timely information about investment cases.
- The Investment team's research process is bottom-up as they believe that security selection is the most important value-creation factor of the investment process.
- Risk Strategies team provides tools to actively budget and manage risk.

Step 3 - Security Selection

Only invest in companies with:

- Strong management
- Good financial strength
- Strong competitive position
- Cash generation
- Clear consistent business strategy
- Reasonable growth & attractive valuations.

Stocks are sold as they achieve target price, the story changes, or when new investment opportunities arise elsewhere.

Step 4 - Portfolio Construction

- Concentrated Portfolio of approx. 35 multi-cap stocks.
- Invests in all sectors and in all European countries.
- Overweight positions (min. 1.5%) versus the benchmark weighting of a stock.*
- No underweight or neutral position versus the benchmark.*
- Controlled Portfolio turnover.

*Note: these are internal guidelines and not prospectus limits and may be subject to change over time.
